

pH Perfect

automated liquid pH corrective feeder

To maintain pool health the most critical element is pH balance, without it everything else will be unstable. **pH Perfect** was designed to give your pool perfect balance everyday.

Without pH balance your pool will always be struggling to maintain correct sanitiser levels, the water will be irritating to swim in and general pool maintenance and costs will sky rocket. Without doubt the single most important element in pool water chemistry is maintaining a good constant pH level.

The ideal for most pools is between 7.2 - 7.6, this provides optimal bather comfort and keeps your sanitiser working efficiently. If you start to drift outside of this (up or down) you will notice the water start to irritate your skin and eyes.

pH Perfect will keep your pH level reliably constant

Using a pH sensor located inline providing real time instant feedback to the control as to when it needs to add corrective solution. This means no waste and accurate dosing every time and best of all it means you don't need to handle the dangerous chemicals.

pH Perfect can be used to deliver either liquid pH up or pH down depending on your pool's needs

If you use a Salt chlorinator pH Perfect is an absolute must have, one the natural occurrences with any saltwater device is the tendency for pH to creep upwards. pH Perfect will compensate for this and always keep your pool sparkling clean and perfectly balanced.

pH Perfect is suitable to combine with any sanitiser

pH Perfect uses an intelligent 'proportional feed system' that regardless of any type of pool surface or finish that the set point is reached in the quickest possible time with the least amount of corrective solution, saving time and money.

Power Consumption	9W
Maximum Dispense rate	1.5L/h
Max. back pressure	1.5bar
pH control range	0.0-14.0
Accuracy	+/- 0.1pH
Dimensions	235mm x 200mm x 85mm
Weight	1.7kg

Zodiac lives in the backyards of Australian families, at home in the pool. Zodiac began and continues with a dedication to innovation and new product development, focused on ensuring a better way of life. Our products deliver solutions to take the hassle out of owning a pool. So, all that's left is for you to enjoy it; to enjoy a better life.
